<p>Color variation- Permshield vinyl flooring can have a slight color variation in between production runs. Make sure to check the production run number located on the label of the carton. If you find that you have cartons from different production runs, it is highly recommended to open cartons and install a mix of planks from each different production run on your floor. This will result in a more natural looking floor.</p> <p>Deliveries and Pickups: Permshield products are restricted to curbside deliveries only. Any claims for shortage or damages must be noted at time of delivery. No claims will be allowed after the order has been delivered, picked up and signed for. The buyer is solely responsible for loading and securing the product. The buyer release/waive and discharge Permshield and its employees for all liability for, damage, cost, expense or any other loss.</p> <p>Installation and Measurements: Buyer is responsible for installation, measurements, quantities, and final inspection.</p>
